

- Advanced formula removes road grime, bugs and salt
- Improves visibility for driving safety
- Streak-free cleaning
- Biodegradable

WeatherBlade Windshield Protectant applies an advanced formula water and all weather repellent coating each time you use the washer to clean your windshield. Remove winter sludge or remove mud and bugs for warm weather travel. Enhances the operation of wiper blades with lubrication for streak-free cleaning.

Applications & Uses	Dilutions	Directions
All Season Use	64:1	Use 2 oz. per 1 gallon of water. Fill vehicle reservoir in usual manner. NOTE: Clean windshield and wiper blades with WeatherBlade dilution for a good initial coating against road film and bugs.
For Winter Blend, add methanol dilution as follows in addition to the above dilution of 2 oz. per 1 gallon water (64:1).		40% methanol -30°F 30% methanol -20°F 20% methanol -0°F 10% methanol +10°F

NOTE: When cleaning your windshield, clean the wiper blades with WeatherBlade to remove road film.

Suggested Industry Applications:
